

THE SUSTAINABLE LUXURY FLOORING OPTION

IMPERVIA LUXURY FLOORING V LUXURY VINYL TILES

IMPERVIA LUXURY RIGID FLOORING

Cost of fitting:

Between £10 to £15 per m²

Materials needed to fit:

None just a flat sub floor to SR1

Impervia Flooring has a simple push fit system and can be easily removed as it is a floating floor.

Disadvantages:

None. Can be easily replaced as it is a floating floor.

Advantages:

Impervia has its own acoustic backing.

Can withstand temperatures from -30 degrees C to in excess of 68 degrees C and any humidity level.

Waterproof and fireproof.

No need for acclimatisation.

Less on-site storage.

Perfect latest push fit locking system.

6.5mm thick to guarantee longevity in the floor and installation.

GLUE DOWN LUXURY VINYL TILES

Cost of fitting:

Between £23 to £31 per m²

Materials needed to fit:

Sub Floor must be SR1 or better and have a DPM say £10 per m²

Adhesive say £1 per m²

Total to fit between £23 to £31 per m²

Disadvantages:

Tiles or planks are permanently glued down and difficult to remove or replace damaged flooring.

No acoustic backing.

Longer installation time due to required processes.

Plastic can be damaged easily and is not environmentally friendly or sustainable.

Moisture & Humidity Levels

Most LVT has to be acclimatised.

LVT needs the correct moisture levels, temperatures and humidity levels.
